Thank you for this opportunity to write to you about issues which are important to me and my family. We believe that it would be best if the National Association of Broadcasters were allowed to restrict our freedom to listen to XM Traffic and Weather.

Please do not limit Satellite Radio in its ability to broadcast local weather and traffic. Local weather and traffic information is a right now need to know type of service is one of the reasons that I have the service in my truck.

Thank you again for listening to us.

Sincerely
Michael
